### E-Z Lift Technology

E-Z Lift Technology eliminates the endless pumping of conventional jacks to get your jack under load. With just one stroke, E-Z Lift lets you immediately lift under load, saving you time and energy. . .

- 1) Close the release valve and insert jack handle into the E-Z Lift handle slot located on the lifting arm of the jack.
- 2) In just one stroke, lift the jack arm to your vehicles chassis.
- 3) Remove the handle from the handle slot and insert into handle sleeve of pump to begin immediately lifting under load.
